ONE TIME LOCAL MAN FOR MAYOR

Byron Mauzy, Native of This City,
May Head Administration of
San Francisco.

HAS DISTINGUISHED CAREER

Is Prosperous Piano Merchant and
Prominent in City's Political
Affairs—to Succeed Rolph.

Byron Mauzy, a former resident of
Rushville is, being urged by his
friends to run for mayor of San
Francisco. Mr. Mauzy is well known
here and his many friends will be
glad to hear of his success in the
business and political world. The
following from the Musical Age will
be of interest:

Byron Mauzy, whose name is inti-
mately associated with the business
and political life of this city, will be
probably the next mayor of San Fran-
cisco. He has no lack of backers for
the office, and will certainly get the
nomination of the Republican party.
It is not regarded as likely that an
opposition candidate of any impor-
tance will come up against him, for
the chances of defeat are entirely too
great.

Mr. Mauzy was born in Rushville,
Ind., on March 31, 1860—the son of
Reuben D. Mauzy and Rachel (Cal-
dwell) Mauzy. He married Ellen Till-
man Schroth at San Francisco in
1891. Mr. Mauzy attended the public
schools of his native town up to the
year 1875, when he moved to San
Francisco. There he entered high
school for two years.

He learned the piano trade and
worked at that for seven years. At
the end of that period—1884—Mr.
Mauzy embarked in business for him-
self, and has continued down to date.
He has enlarged his field of opera-
tions during the twenty-seven years
in which he has been in business, and
today, in addition to conducting one
of the finest and most widely known
piano salerooms on the Pacific coast he
is a manufacturer and importer,
handling some of the world's most
noted instruments.

He is a director of the Down Town
Association, and has also been treas-
urer and director for five years of the
Merchants Association, a body de-
voted to commercial progress. He is
a director of the Mechanic Institute,
having held that office for many
years.

He has taken a prominent part in
progressive politics, and in 1909 was
a candidate mayor on the Lincoln-
Roosevelt Republican ticket. In 1911
he was elected supervisor for a two-
year term.

He is a member of the Bohemian,
Union League, Olympic Common-
wealth, Elk and Rotary clubs, in ad-
dition to being a member of the Ma-
sonic orders, a Knight Templar, a
Thirty-second degree Mason, Scot-
tish Rite, Son of American Revolu-
tion, vice-president and director of
the Young Men's Christian Associa-
tion.

Mr. Mauzy has two children, a son
who is in the University of California
and a daughter in the Girls' High
School.

Morris Winship has the contract
for a new school building at Benton-
ville, the contract price being \$15,-
000. His son Will will superintend
the work of construction which be-
gins tomorrow.

Dr. and Mrs. P. H. Chadwick and
family have moved to their new
home in Willow street. Mr. and Mrs.
Ed. Perry have moved into the house
in "Tony Row" vacated by the
Chadwick family.

LOCAL COMPANY ATTENDED

Memorial Services of Uniform Rank
in Wilkinson.

The local company of the Uniform
Rank, Knights of Pythias went by
automobiles to Wilkinson, yesterday
and attended the memorial services
of the third regiment of the Uniform
Rank. Colonel Shellhouse, Indiana-
polis, of the first regiment, inspected
the third regiment. Brigadier Gen-
eral Gray was also present. The ex-
ercises were held in Powers' grove at
the edge of the town. Rushville has
two officers on the third regiment
staff, they being Ed Muir, chaplain
and J. K. Jamieson, battalion adju-
tant. More than four hundred at-
tended the services and the regimental
drill. Next year the services will
be held in Knightstown.

NORRIS ASKED TO COME TO CHICAGO

Clerk of Circuit Court Urged by Sen-
ator Dixon to Assist in Organ-
ization For Roosevelt.

WILL MOBILIZE THE FORCES

Verne Norris, clerk of the circuit
court, Saturday received a telegram
from Senator Joseph M. Dixon of
Montana, Theodore Roosevelt's man-
ager, who is directing the third term-
er's pre-convention campaign in Chi-
cago. In the message to the local
Roosevelt adherent, Senator Dixon
urged that he come to Chicago as
soon as possible to assist in the or-
ganization of the forces behind the
former president.

Mr. Norris expects to attend the
national convention this year, but
probably will not go for several days.
The telegram asked that he be in
Chicago not later than Wednesday.
Similar messages have been sent by
Senator Dixon to Roosevelt workers
all over Indiana. It is the intention
to mobilize the forces of the third
term early and make a loud and
noisy showing. A number of Rush-
ville county Republicans will attend
the convention this year.

WANTS DAMAGES FOR CANCELING STOCK

Union National Savings and Loan
Association Brings Suit Against
C. F. Pritchard, et Al.

JUDGEMENT OF \$4,000 ASKED

The Union National Savings and
Loan Association of Indianapolis has
filed a suit against Charles F. Prit-
chard, et al., of Knightstown, demand-
ing judgment for \$4,000, for the
cancellation of shares of stock in
said association aggregating \$2,500,
and for foreclosure of mortgages on
certain real estate in Knightstown.

The complaint alleges that on the
5th day of November, 1910, said
Charles F. Pritchard was owner of
twenty-five shares of stock in said
association of the value of one hun-
dred dollars each. On the same date
the plaintiff loaned \$2,500 to the de-
fendant, taking his promissory note
therefor, and a mortgage on lots 133,
134, 138 and 150 in the Merchants
and Manufacturers addition to
Knightstown.

The complaint alleges that so in-
terest, premiums or fees has been
paid for twelve months.

SAYS MIRACLES STILL HAPPEN

F. H. Leonard in Address on Chris-
tian Science Declares Universal
Belief is Wrong.

LARGE CROWD HEARS LECTURE

Points Out World at Large Has Mis-
apprehension of Position Ac-
cording Mrs. Eddy.

The lecture on Christian Science
given by F. H. Leonard, C. S. B. yes-
terday afternoon in the court house
assembly room was attended by a
large crowd and the address was
quite eloquent. Judge Will M. Sparks
introduced the speaker. Judge Sparks
said:

"Ladies and gentlemen—A few
years ago I had the pleasure of list-
ening to a lecture by one who sits
in your audience today, and I remem-
ber it is one which I very much en-
joyed. I remember that immediately
after that time my telephone was al-
most in constant use inquiring as to
my spiritual condition, as to whether
I had forsaken my flock and accepted
Christian Science, but I believe in
affiliating with anybody that adores
the risen Christ and I can do so.
Anything that tends to the betterment
of humanity and the uplifting of the
human soul always finds a responsive
chord with me and I trust it always
will.

"I don't believe in Christian Science
because I don't know anything about
it and for that reason I don't criti-
cize. I think there is more injury in
this world today on account of un-
just, insincere and unthoughtful
criticism than for any other source,
and for that reason be it far from me
to criticize. There are some things
I like about Christian Science—about
the result of Christian Science.
Some of my acquaintances are Chris-
tian Scientists and I think the world
and all of them on account of their
beautiful characters. Anything, in
my opinion, that tends to beautify
the character, not reputation, but
character, seems to have some merit
in it.

"After all, we are all wanting the
same thing. We want the same thing
in eternity and we are all seeking the
same goal. We have our own sys-
tems and they are the same for every
day. I don't criticize you for this. I
like you for the good you have done
and the characters you have created.
I want to affiliate with you—affiliate
with men seeking for truth along the
lines of life.

"I am glad to hear this thing dis-
cussed. I never talked with but few
Scientists in my life and I never talk-
ed long but what they told me some-
thing. I am glad and we all are
glad we are here to hear an address
on this matter by one who is able to
tell us about it. I am glad to intro-
duce to you F. H. Leonard, C. S. B.,
who will now address you."

"We read of the wonderful hap-
penings of the times of Jesus, wish
they might be possible now and then
accept the universal belief that the
time for miracles has gone," said
Mr. Leonard. "To say the time has
gone by for the power of the Word to
be manifested is literally 'taking the
name of the Lord in vain,' for he
said 'Lo, I am with you always.'"

"Webster defines a miracle as 'any
thing wonderful.' What Jesus did
was in direct opposition to what we
term natural law; but instead of our
accepting and clinging, as we have,
to so-called law as the real law, we
should recognize that no law is nat-
ural or normal save that which mani-
fests in all ways on all occasions
good or God. What Jesus did was
not supernatural from the basis of
the law."

AUTO SKIDDED; PARTY ESCAPES

Machine Belonging to Harlan Over-
leese Crashes Into Telephone
Pole on New Salem Pike.

OCCUPANTS SLIGHTLY HURT

Compact Damages Car, Smashing
Body and Wheels—Occurs
Three Miles South of Here.

Mr. and Mrs. Harlan Overleese and
Mr. and Mrs. Albert Tower of Milroy
had a close call from being seriously
injured, or possibly death, yesterday
afternoon about 5 o'clock, when the
automobile in which they were riding
skidded and crashed into a telephone
pole.

The party was in Mr. Overleese's
machine and was returning to Milroy
from this city. The accident occurred
on the New Salem pike about three
miles south of here. Mrs. Overleese
was driving the automobile at the
time and had pulled to one side of
the road to avoid hitting a rough
spot. In doing so the left rear wheel
skidded off on to the grass and car-
ried the heavy machine down in the
ditch. Before it could be stopped
the machine crashed into a telephone
pole.

The occupants were thrown from
the car with the exception of Mr.
Overleese. Mr. Tower was severely
bruised about the head and shoul-
ders. Mrs. Tower probably sustained
the worst injuries of any. She was
thrown against the pole and was
badly bruised. The entire party was
more or less bruised and the injuries
might have been fatal if the auto had
been running fast.

It is stated that the machine was
not going over twenty miles an hour
and the accident would never have
occurred only for the dusty condi-
tion of the road. The machine was
badly damaged and was taken to
Milroy and later brought here for
repairs. The left wheels were torn
off and the axles badly bent. The
body of the car was also damaged.

PREPARING FOR OUTING

Salvation Army Will Take Children
to Fair Grounds.

The Salvation Army began active
preparations this morning for their
outing to be given 250 children at the
fair grounds June 19. Provisions and
funds are being solicited. It is the
intention of Capt. Cook of the Army
to give the poor children of the city
one big day and one they will long
remember. The children will be tak-
en to the fair grounds in automobiles
and at noon dinner will be served.
The outing will be an all-day affair
and Capt. Cook desires the support
of the people to make it a success.

STORE SOLD.

Ray Owens has sold his grocery
store at Clarksburg to D. R. Higgins
and son. Mr. Higgins has had a good
deal of experience in the grocery
business for the past five or six
years, having at one time conducted a
store in New Salem. It is understood
that Mr. Owens will go back to the
farm.

The Meadow Larks lost to the
Ramblers, the fast colored team yes-
terday morning by a score of 13 to 7.

The most densely populated of all
the countries of the world is Belgium,
with 336 inhabitants to the square
mile.

LEFT RIG HITCHED IN ALLEY

And Paid Fine of One Dollar and
Costs.

Herschel Miller was fined one dol-
lar and costs in police court this
morning for violating the city ordi-
nance against hitching in the brick
alleys. His fine of eleven dollars was
stayed. Miller's rig was found hitch-
ed in an alley Saturday night by
Chief McAllister and taken to a liv-
ery stable. As the police have been
bothered more or less recently with
people hitching in the alleys they
made an example of young Miller and
will hereafter arrest all offenders.

DANIEL KELLEY, OF LAUREL A SUICIDE

Found in Pond Near Town With Feet
in Grain Sack and Handker-
chief Around Face.

DESPONDENCY THE CAUSE.

Daniel Kelley of Laurel was found
dead in a pond just east of the town
Friday evening, says the Connersville
News. All the circumstances indi-
cated suicide. The man's feet were
in a grain sack, which was tied about
the waist. A red handkerchief was
tied over his face and head. When
found he was floating in an upright
position.

The man was a bachelor about
forty-two years old. He lived with a
sister, Ella Kelley, and had been em-
ployed at the Carey Williams meat
shop of late. Ill health and general
despondency are supposed to have
moved him to self destruction. He
was unable to go to work Friday
morning, and was missed early in the
afternoon. An organized search was
begun and the body was found in a
deep pond which lies under the east
end of the wagon bridge near the
main channel of the river. Just when
the suicide occurred no one knows,
but it is thought to have been about
mid-afternoon. The body was found
about seven o'clock Friday evening.
Late in the afternoon some boys had
been idly throwing stones at the odd,
reddish object in the pond. This
proved to be the bandaged head of
the corpse.

KICKED IN FACE BY HORSE

Three-year-old Boy Not Expected to
Recover.

Paul Evans, the three-year-old son
of Mr. and Mrs. Barney Evans of
near Clarksburg was fatally kicked
in the face by a horse yesterday af-
ternoon while playing in the barn lot
at his home. The boy's face was
badly lacerated and pushed back in-
to his head. Dr. Will Smith of this
city was called and states that he
can not recover. His parents for-
merly lived west of this city.

COMMISSIONERS MEET.

The county commissioners were in
session this afternoon, the meeting
being for the purpose of receiving the
plans for the proposed heating plant.
The blue prints showing the proposed
changes were explained to the com-
missioners and the specifications for
the same were filed.

THE WEATHER

Fair tonight and probably Tues-
day.

LOCALS DROP A CLOSE GAME

Game Featured by Heavy Hitting
Goes to Indianapolis Team
by Score of 11 to 10.

RUSHVILLE HAS AN OFF DAY

"Wee Willie" Dammon Gets Triple
With Two Men on in Sixth
Inning—Connersville Next.

The Indianapolis Navy club, Plaza
Specials, or whatever the real name
is, defeated the locals yesterday 11 to
10. Before going farther hist to the
score. Some one tried to "Jimmy"
the job and make the score a little
different but for the benefit of those
who are in doubt the game goes down
11 to 10, which was the real score.
Rushville had the game won, over-
came a three run lead, tied the score
and then lost by the margin of one
run.

For the fan that cares for heavy
hitting and lots of action the game
was a hummer. Altogether twenty-
three hits netted twenty-one runs.
That's not so bad with eleven errors
added for good measure. Rushville
simply had an off day as is bound to
come to every ball team sooner or
later. Avery was very unsteady and
although he struck out ten men the
Indianapolis bunch got to him for
thirteen hits. Ernie Waybright of
Greensburg was seen in a Rushville
uniform for the first time this year.
He played right field.

The Indianapolis club was headed
by "Wee Willie" Dammon, one-time
pitcher for the Cincinnati Reds and
other big league teams. Dammon
played center field. It was he who in
the sixth inning got a triple with two
men on, helping put the game on ice.
Dammon was about the whole show
and played a nice game.

Indianapolis started in on the jump
and scored two runs in the first.
Seannaker, the first man up, hit safe
and scored on G. Zeller's three base
hit. Dammon was safe on Cook's
error. Zeller scoring. A fast double
play by Cook to Thomas put the
blinks on the score getting as the next
man up struck out. Rushville came
back in their half of the inning and
scored four runs, obtaining a two run
lead. Carter beat out an infield hit.
Cook got on base when the catcher
dropped the third strike. Thomas
struck out. Darmondy flied out to
center field, sacrificing Carter to
third. Geraghty hit to short stop,
Carter scoring on the error. Pea was
hit with a pitched ball. Waybright
hit to center for two bases. Cook and
Geraghty scoring. Pea scored on a
wild pitch. Spacey flied out, thus
ending the counting.

Indianapolis drew a blank in the
second, while the locals added two
more runs. Avery hit safe and Car-
ter sacrificed him to second. Cook
smashed out a two base hit, Avery
scoring. Thomas sacrificed Cook to
third. Darmondy singled to center
and Cook scored. With a four run
lead the game looked pretty soft for
Rushville. Indianapolis added an-
other in the third and the scoring was
over until the sixth inning when the
real fireworks of the game came.

In the sixth Indianapolis scored
six runs and the game took on a dif-
ferent appearance altogether. West,
the first man up, hit for two bases.
C. Zeller drew a pass. Cubits hit to
center, West scoring. Seannaker was
out Avery to Thomas. G. Zeller was
out to Thomas. With two men down
and two on bases, Dammon came to
bat. Avery intended to pass him and
Dammon was wise to the deal. The
first ball thrown was plenty wide but
Dammon reached over and poked out
a three bagger, scoring two runs.
Mears was safe on an error by Cook.

THE REAL TEST IS IN INDIANA

Contest From This State May Furnish Example.

POLITICAL BATTLE FOR LIFE

With the Taking Up by the Republican National Committee Today of the Contest Between the Roosevelt-Beveridge and the Taft-New Delegations the Real Battle of the Pre-Convention Campaign Opened in Earnest.

Chicago, June 10.—Working like dray horses, the opposing Republican forces and their leaders were in conference all day Sunday. In the conference it was clearly defined for the first time that Senator W. Murray Crane of Massachusetts is the chief captain in charge here of the Taft forces and ex-State Senator William Flinn of Pittsburg is the master spirit of the Roosevelt forces.

Senator Crane was in conference all day with most of the Republican national committeemen. Today's session of that committee promises to be most important, as the contests in Indiana are being heard today. They are supposed to furnish the real test of the contests in the northern states. The seats of the four delegates-at-large and those of the delegates of the First, Third, Fourth and Thirteenth congressional districts are up for consideration, and there is a terrific fight on over these Indiana contests. The Beveridge organization in the state was overthrown in the last campaign, and the Roosevelt-Beveridge combination proposes now to overthrow the Taft-New organization. The Roosevelt-Beveridge adherents are making the fight of their lives on these contests in Indiana.

The Roosevelt captains here heard of the possibility that the California contests may be taken before the national committee and they telegraphed to Governor Johnson to come immediately to this city. Should these California seats be contested by the Taft people in the national committee, the Roosevelt delegates may be unseated. The four delegates-at-large from Missouri, headed by Governor Hadley and the ten delegates from South Dakota, were also taken up for consideration by the Taft managers. It was stated that if the facts warrant the national committee in looking into the election of the Missouri and South Dakota delegates, it will certainly do so.

Ex-State Senator Flinn, the chief executive of the Roosevelt forces, has been in conference with members of the steering organization which he has formed for proselyting work. Mr. Flinn sent telegrams to batches of Roosevelt delegates in the many states for them to come immediately here and join this organization of Roosevelt delegates on the ground. All must be here by Wednesday morning.

As the days pass there is growing apprehension here of trouble. It was stated very positively by representatives of the Taft camp that Mr. Flinn and Roger C. Sullivan, for many years Democratic national committeeman of Illinois, have hatched up an arrangement by which the Roosevelt cohorts are to be swelled to thousands. When the report was brought to Colonel Sullivan's attention he said it was too ridiculous for a moment's notice, still the Taft people say that their information comes straight.

The police chief of Chicago will be in conference with Colonel William F. Stone, sergeant-at-arms of the national committee from this time on until the convention ends. Chicago's police chief is to furnish an additional supply of bluecoats at the Coliseum on the theory that an ounce of prevention is worth a pound of cure. During the sessions of the convention it is promised that there will be hundreds of bluecoats handy in the inside of the Coliseum. Even at this writing it is evident that the scenes in the convention are to be the most tumultuous of any convention of the two dominant parties known to the present generation. The Taft forces and the Roosevelt forces are so evenly divided that there is bound to be uproars and even terrific clashes.

STOMACH MISERY QUICKLY ENDED

Sourness, Gas, Heaviness, Heartburn Go in Five Minutes.

Eat a hearty meal if you want to. Then take two MI-O-NA tablets and you'll wonder why that old stomach of yours is so comfortable.

DEATH OVERTOOK FLEEING FORCES

Portion of Orozco's Army Perished in Desert.

Los Angeles, June 10.—Six hundred of Orozco's army, driven from the city by the federals, became lost in the desert of Bolson de Mapimi and perished, according to details of the recent battle at Cuator, Ciengas, Mexico.

The report says that the fugitives divided into two parties and, in the confusion, instead of taking the road which led to Tsalcon, headed directly for the wilderness. In their flight they abandoned provisions and a few days later the vanguard found itself in the center of desolate sandhills. Men were dropping like flies when the leaders came upon an old well. After satisfying their thirst, they decided that the federals were pursuing and they destroyed the pump, so the regulars could not use the well. Six hours later the second division of rebels, following the tracks of the first, staggered to the well. Then followed a scene such as was perhaps never enacted before. The thirst-crazed rebels fought with each other for the privilege of jumping into the gaping shaft, utterly disregarding orders of their officers.

Five minutes later the well was filled with struggling men, all of whom succumbed before their comrades could reach them to drag them out. Delirium seized the remaining members of the army and the disheartened soldiers fled across the desert sands, only to find death under the burning sun. Of 1,100 men in the second division, only a few more than 400 resumed their sorrowful march.

A few days later scouting parties, acting under orders of General Aubert, found the desert dotted with the bodies of the rebels. The valley henceforth will be known in Mexican history as Llanura de Muerte, or Plain of Death.

Succeeded at Last.

Indianapolis, June 10.—After fifteen years of unsuccessful efforts to end his life, Harry Jarrell attained his desire when he swallowed poison and died within an hour. Jarrell was possessed with a mania for suicide and had tried to end his life at least once a year for the last decade and a half. Jarrell had been drinking and had been out of work for some time.

real or God naturalness but in full accord with all the promises in the Bible as to the redemptive accomplishment of acceptance of his work as the direct manifestation of the omnipresent power of the Word.

"We must accustom ourselves to reasoning out the things of Spirit and cease believing they are hidden from us until after the change which we call death. The things of Spirit are eternal and it is as much eternity now as it ever will be, so now is the time when we are to worship God in spirit and in truth and cease giving willing ear to the cry of carnal mind which is at war with Spirit and its death unto any possible knowledge of God.

"The Bible teaches 'be ye transformed by the renewing of your mind' and this means we are to be changed in substance by beginning again with Mind.

"Jesus the Christ transcended all material belief and theory when he healed the sick with the Word of God and yet he said, 'I can of mine own self do nothing,' indicating it was the 'Mind' in him, the Father, God, which did the works.

"It is very easy to go to God when we are in distress if we will only go upright and not make the endeavor a

futile one by trying to tell Him what to do. It must be not only my way but Thy way, not my will by Thy will. 'My Way' and 'my will' are the barriers which mortals have thrown up between themselves and God. These are the things we have to cast aside and rise above, for they constitute the veil which was rent asunder when the Master in his humanity and meekness seemed to yield temporarily to the hatred of carnal mind for good, the meekness and humility which brought him out from the shadow and the tomb through the realization of the spiritual Mind which is 'Life and Peace' unto the absolute overcoming of belief in sin, disease, and death and the establishment in consciousness of eternal Life, Truth, and Love.

"Paul wrote 'There is no respect of persons with God,' which means that the right to go to God with out every problem is innate, belonging to no special period not to any select number, but is as eternal as eternity itself. Each one of us has the same right to demand of Truth the fulfillment of its very promise as had the humble Nazarene and, when we ask aright, each will find the word clothed with authority and see God's glory manifested in his individual experience through the overcoming of evil in all its varied claims of power and law.

"In order that we may know the 'only true God, and Jesus Christ,' which knowing is 'life eternal,' we have to reverse evil and we find the word 'evil' itself bears out this statement, for if we spell 'evil' backwards, we find it spells 'live.'

"Christian Science teaches that to reverse evil means to stop being afraid and when we think of it, we know there is no need in the world so great as the need of the knowledge of that 'perfect love' which casts out fear. Mortals manifest fear from the veriest babe unto the oldest man, for they all worry, and worry is but another name for fear. It is just as unlawful, according to the law of God to be afraid of a pain or of evil in that form, as it is to be afraid of anything from a moral standpoint.

We ought to be fearful when we come face to face with problems which would suggest the acceptance of an immoral belief or thought. We ought to be just as fearful in the right way when the suggestion comes to us of that other kind of an evil or ungodly thought which calls itself pain.

"But some one who is suffering may say, 'I guess if you felt as I do you would say you had a pain.'

"So long as any one feels that way about it, he will continue to have pain unto the ultimate of that wrong thinking, for the Bible tells us as man 'thinketh in his heart, so is he' and 'The thing which I greatly feared is come upon me.'

"Mortals have the seeming ability to think wrong and have the wrong manifestation, or to think right and have the right manifestation. If one is determined to hold unto the statement that he has a pain and knows it, there is only one thing to do and that is to let him have it. It is entirely a matter concerning himself and no Christian Scientist will interfere to dispel it unless asked to do so.

"I had nothing but pain for years and was absolutely convinced that pain was the most real of all things in my entire experience, and as long as I felt that way I continued to have pain. Then Christian Science came to me, and in its teaching and treatment brought to me the conscious knowledge that I had been thinking wrong and was believing in the wrong thing—I had not been rightly educated about the power and the infinity of the law of God; and when the Christian Science practitioner said the pain I had been suffering from was simply the outward manifestation of wrong thought and belief about God, I began to change my belief; and when I thoroughly changed my belief I did not have the pains and for the first time of which I am conscious, was well.

"Now, really, this presents just one question: If to believe in the reality of pain gives it to you and keeps it with you, and to know the unreality and falsity of the belief takes the pain away, is there any one in this world that would not be willing to have the knowledge of reality, or God, which gives him peace and joy and happiness?

"There are two kinds of fear spoken of in the Bible, the 'fear of the Lord,' which is the beginning of understanding and is to hate evil; and the fear that there is a power apart from God. One is terror, the other is reassurance; and when we have the 'fear of the Lord' which is reassurance and the beginning of wisdom, we realize that dominion and not slavery is our portion. What are we called

upon to do in order that we may be fitted to accept and use this realization of Truth—the knowledge of right thinking that means right consciousness? We must lay self-love, self-will, self-justification, self-complacency, self-exaltation, mad ambition and everything akin thereto on the altar of self-abnegation for Christ's sake.

"Christian Scientists, with their present day apprehension of the infinite power of the Word of God, are finding themselves daily face to face with the statement that they must grow in grace, and they will never stop growing in grace until they have come literally to the fulness, the liberty and the statute of the fulness of Christ.

"It has been said of Christian Scientists that if ever any one came into their homes who was sick and who was not a Christian Scientist, they would lock the doors and windows and lose the key to prevent them from having a physician if they wanted one. I want to read from the Christian Science text-book (page 443) what the leader of the Christian Science movement had to say on that point:

"If patients fail to experience the healing power of Christian Science, and think they can be benefited by certain ordinary physical methods of medical treatment, then the Mind-physician should give up such cases, and leave invalids free to resort to whatever other systems they fancy will afford relief."

"The world at large has had great misapprehension as to the position accorded to Mrs. Eddy by the Christian Scientists.

"They have never looked upon her as a Creator but simply as a Revelator, who through consecration, self-abnegation and profound spiritual searching of the Scriptures, discerned the great Truth of the life 'hid with Christ in God' which she transcribed in the Christian Science text-book, 'Science and Health with Key to the Scriptures,' so simply that anyone who is willing to study may comprehend and know the 'Truth' which makes man free.

"The Christian Science text-book, 'Science and Health with Key to the Scriptures,' Mrs. Eddy's legacy to suffering and sin-sick humanity, enables one to find the spiritual truths in the Bible, simplifies and elucidates their teachings and makes practical the example of our Master while on earth. It does not supersede nor does it take the place of the Bible, but makes it more desired and studied than ever before.

"The message of Christian Science to mortals is the message of hope, the message of activity and the message of joy. It is the glad tidings that at last we know how to worship God and how to 'Walk in the Spirit' that we may not fulfil 'the lust of the flesh' but 'press toward the mark for the prize of the high calling of God in Christ Jesus.' 'For of him, and through him, and to him, are all things: to whom be glory for ever.'"

DEMOCRATS GETTING READY TO GATHER

Final Plans for Convention Being Laid Today.

New York, June 10.—In this city today plans for the Democratic convention at Baltimore will be completed between National Chairman Mack and Urey Woodson, secretary of the Democratic committee and national committeeman from Kentucky. Mr. Woodson said that he expected very little trouble over contested seats at Baltimore. No contests have been filed except by delegates from Alaska, Porto Rico, the District of Columbia and the Philippines. In addition there may be a fuss over the Chicago delegation. Mr. Woodson said he had official information that the Carter Harrison wing of the party was scheming to unseat Roger Sullivan's delegates from Cook county.

The first delegate that Alaska has even sent to a Democratic convention has come to town on his way to Baltimore. He is Colonel A. J. Daley, committeeman from the territory. There will be two women delegates from Colorado and two from Idaho to the convention.

Secretary Woodson said that the convention hall in Baltimore will seat 15,000. Newspaper men would find he said, that arrangements for reporting the convention are nearer perfection than any previous national convention of either party yet has attained.

Charged With Murder of Child.
New York, June 10.—Joseph J. McKenna, who, despite his thirty-three years, could not claim an occupation has been held without bail to await the inquest following the death of six-year-old Bridget Ekstrom, found strangled in the cellar of the apartment house in the Bronx, Thursday night. According to the police McKenna made a statement that amounts to admission of having participated in causing the little girl's death.

TERSE TELEGRAMS

The Washington state supreme court has upheld Tacoma's anti-treating ordinance.

The senate will vote on the question of unseating Senator Lorimer of Illinois on July 6.

A statue to Christopher Columbus has been erected in the Union station plaza at Washington.

It is said that former Vice President Fairbanks will head the resolutions committee at the Chicago convention.

Dr. Harvey W. Wiley, former chief of the United States bureau of chemistry, has declined the city of Boston's offer to become chairman of its board of health.

Three slumbering volcanoes in the Aleutian mountain range of Alaska suddenly have come to life and are throwing out great quantities of smoke and hot ashes.

Kimmerling, a noted French aviator and a passenger who was with him in a monoplane, were killed instantly at Chalona when the machine turned turtle while high in the air.

Charles H. Langford, jr., a Mobile lumber manufacturer, while inspecting one of his mills near Hattiesburg, Miss., was caught in the belting and his body battered to pieces.

More than 30,000 persons assembled at the foot of the Washington monument Sunday morning to witness the second annual military mass in memory of the soldiers and sailors who died in the Spanish-American war.

W. G. Conrad of Montana expects to be a candidate for the Democratic nomination for vice president. He is the cattleman and banker who recently ran for the senate in Montana and got into a deadlock with Thomas F. Walsh, from which neither escaped.

MAY PROVE FATAL

When Will Rushville People Learn the Importance of it?

Backbone is only a simple thing at first; But when you know 'tis from the kidneys; That serious kidney troubles follow; That dropsy, Bright's disease may be the fatal end. You will gladly profit by the following experience.

'Tis the statement of a Rushville citizen.

George Priest, 223 West Third St., Rushville, Ind., says: "I was bothered by attacks of kidney trouble for several years and as time passed my condition became worse. There was dull pains directly over my kidneys and I had spells of dizziness and weakness. My sight often became blurred and I knew that something must be done. Three years ago Doan's Kidney Pills were brought to my attention and were so highly recommended that I got a box at F. B. Johnson & Co.'s Drug Store. They proved to be the best kidney medicine I had ever taken and in a short time had relieved me. On several occasions during the past three years, I have taken Doan's Kidney Pills and they have always given entire satisfaction."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Let People Know About It!

A merchant may have an ideal stock of goods, selected with good judgment, offered at low profits. But if he does not take pains to tell the people about it, few will remember that he is doing business when they have anything to buy.

On the other hand, a merchant may select his stock with poor judgment, and he may ask an inordinate profit for himself. But if he talks about his goods persistently, he will interest people in them, and his store will be thronged with buyers.

This is no day for hiding your light under the bushel of business reticence. People don't seek out things that hide away out of sight. They have to be sought out. The initiative

Eye Troubles

Brief spells of dizziness, pains in the brow and temples come from eyestrain. Glasses correctly fitted—perhaps just to wear while reading, studying, sewing, or other close work may be all that's required for permanent relief.

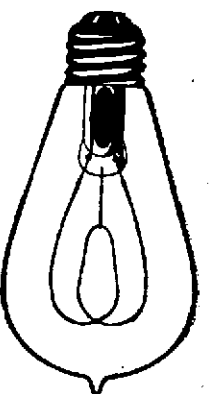

Taken in time the constant wearing of glasses is avoided. Delay means serious eye trouble later on, expensive and painful operation or the loss of vision.

must always be taken by the man who has goods to sell.

An advertisement giving your name, place of business, and a few general facts about your line will be useful. It will remind people of your existence, and the impression will turn the footsteps of a good many to your store.

The advertisement can be made infinitely more effective, however, by taking a few definite leaders, and concentrating attention on them. Describe them just as you would to a buyer in your store, and name the price. You can't fail to interest people.

Our Dumb Animals.

"We speak for those who cannot speak for themselves," says "Our Dumb Animals," on its cover page. In these days of high rate of speed, it is well that we should pause a little and consider the dumb brute, especially the horse, who has to hold his own despite the supremacy of the automobile, the motor-truck, the aeroplane and other fast methods of travel.

There was a case in squire's court last week. Although the man charged with being cruel to a faithful mule was freed by a jury of twelve men, the fact still remains that the mule was badly treated.

Whether the owner or the man charged with the law violation did the act, the animal was badly treated, according to the evidence. Two witnesses testified the man charged told them he cut the mule's tongue with his knife. The evidence tended to show that a vicious bit was used on the mule, and that the owner jerked it one day until its mouth bled.

Haven't you often seen a driver pull and jerk his faithful horse and even beat him, when he was doing the very best he could, and you knew he was, and so did the driver for that matter, but he just abused the beast because he knew he could? Hasn't your ire arisen on many occasions like that, and haven't you wished you could report him to somebody who would treat him in something like the same manner he was treating that faithful beast of burden, or at least who would assess him with the fine he deserved? There are so many abuses connected with the use of horses for driving and hauling, and in permitting them to stand long hours tightly reigned, or in the hot sun and without food and water. And we often see horses hauling heavy loads much heavier than they should, pulling and straining under their burden, with the driver cursing and lashing at them with a huge whip which raises great welts on their flanks, but which gives them not an atom of strength to pull the load. Not long ago a moving van, loaded to the utmost capacity, was stuck in a mud hole, and being pulled out by two slim, poor horses of light weight, of about the right size to be hitched to a grocer's delivery wagon. The driver did not swear at them (he

Sam Sanderson Says:

That as you could probably get a piece of chewing gum out of a slot machine with the proposed half cent, the suggested coinage would do much to relieve the juvenile income.

is a church member,) but he lashed them, and he yelled at them, and he applied every method known to cruelty almost to induce those horses to get out of that hole. They finally succeeded, and he drove them off, still using the whip, at a fast trot, anxious to make up for lost time.

He should then and there have been reported to the humane officer whose duty it is to look after such exhibitions of cruelty as that. And every such case should be reported.

It is charged that Congressman Pujo is asking the banks improper questions. Perhaps instead of merely reading the sign over the front doors, he has been so impudent as to ask how they make their money.

Congressman Thomas of Kentucky has been having a tussle with two reporters. No little incident like this will attract any attention after the Chicago convention casualties begin to come in.

The old fashioned way to make political capital was to pass some laws. Now it is found that investigating somebody secures much bigger headlines in the newspapers and offends no one.

The celerity with which the politicians climb on the band wagon is only equalled with the rapidity with which they climb down when they see the other filling up faster.

Since Charles W. Fairbanks is amateur champion bill poster, how useful he might have been when vice-president by posting enlistment bills for the war department.

Congress is having some copies of the constitution printed. Even if no one living reads them, they will prove useful to historians of a future generation.

It is proposed to require aliens to read and write before landing in the United States. Lucky the college boys don't have to go through such a test as this.

The candidates all claim to be absolutely confident, but few of them would yet venture \$150 for a door plate to be put on the White house.

How can the convention delegates tell how they will vote, when the candidates have not handed out a single promise of an ambassadorship?

It is charged that Wall street has raised \$1,500,000 for the campaign, but if it is in watered stock, it won't go far.

The New York chambermaids are threatening to strike now, preferring a pay envelope to a contribution box.

Big orders for bunting for the national conventions are being given. At a pinch it could serve for badges.

It costs \$6 to bathe a senator. Whitewash is cheaper.

Pay Telephone Toll

Don't overlook to pay your telephone toll before June 12 if you wish to avoid paying 15 cents extra for collection. No notice will be given by telephone.

With a fly day and a baby day at a local theater, we are forced to remark that that is some combination.

If the small boy is determined to drown himself in bathing this summer he will make a better looking corpse previous to July 4.

They say that ball game yesterday resembled one of those old time affairs where everyone swats the ball.

Which makes us say that people who kick on ball players should be glad that their own bone headed mistakes are not printed in the box score every day.

Mayor Shank has come and gone and Rushville is still doing business at the same old stand.

It will have to get colder than this in June when some notable can't trace his connection to this city.

Our idea of a great calamity—to start swimming and lose the bathing suit.

Fishin' was on the bum yesterday, so is Colyming today.

DECISION AS TO
PARTITION SUITS

Appellate Court Avers That Act of
1909 Modifies the Common
Law.

HUNTINGTON COUNTY CASE

The appellate court in a decision yesterday says that the act of 1909 so modifies the Indiana law regarding partitions that a person who is entitled to the remainder of an estate is also entitled to the partition of the real estate in some cases although there is an existing life estate in the land. The opinion was given in reversing the Huntington circuit court in the partition suit of Thomas G. Smith against Riley Andrews and others, involving land in Huntington county.

The court says that in common law the person entitled to the remainder after partition had no right of partition and it sometimes worked an injustice and that the act of 1909 relative to partition should be so construed as to remedy the defect of the common law.

The appellate court held that the Huntington circuit court should have sustained a demurrer to the answer of the defendants, as it showed the life estate had been conveyed to some of the persons entitled to the remainder after partition.

Here's Where the
Fun Comes In

An amusing incident happened at the recent Reese and Russel trial at Brookville, says the Andersonville Herald. The lawyers for the plaintiff excused a couple of jurymen because they knew Attorney Jack Ross. When the two new men were brought in they stated that they lived in Brookville township. "How long have you known Attorney Alexander and Hubbard?" asked Mr. Ross. Both jurors answered they had known the two attorneys for years. "I accept the jurors," said Mr. Ross. "The longer they have known the opposing counsel the better."

AMUSEMENTS

The Princess has the usual two pictures tonight. "The Sacrifice" is the title of a thrilling Labin drama. The other is an Essanay comedy, "Cured." The attraction Wednesday is the sensational picture entitled "The Illumination."

The Portola will show an Edison drama entitled "Charlie's Reform" as the first picture. The other is a western drama, "Tenderfoot Bob's Regeneration." The Troubadour concert company's entertainment Saturday night attracted a record breaking crowd and the attraction was above the ordinary.

Louis Lambert transacted business in Indianapolis today.
Judge Douglas Morris was a visitor in Indianapolis today.
Mr. and Mrs. A. L. Gary were visitors in Indianapolis today.
Miss Marie Helvie of Connersville spent Sunday in this city.
Miss Jewel Toft of Winfall, Ind., came today for a visit with her aunt, Mrs. B. F. Sampson, west of the city.
Mrs. W. A. Cullen and Mrs. F. A. Caldwell and son James have gone to Rising Sun for a week's visit with relatives.
Mrs. Martha Hume of Oakland, Cal., and Raymond Conner of Indianapolis visited Morton Conner and family here yesterday.
Mr. and Mrs. Alva Newhouse and son Paul and Charles Caldwell motored to Indianapolis yesterday and attended the family reunion at Brookside Park.
Mrs. S. O. VanOsdol of Newcastle and Mrs. J. B. Houze of East Enterprise came this afternoon for a visit with Dr. and Mrs. D. D. VanOsdol and family.

Mr. and Mrs. O. C. Norris and daughter, Mildred, spent a few hours at New Salem Sunday afternoon, guests of Mr. and Mrs. A. P. Wellman and Mr. and Mrs. Q. A. Poston.
Robert Boyd and wife, Mrs. Morris McQuiston and daughter, Mrs. Clyde Hazelrigg and son left Indianapolis at 11:45 Saturday morning for Medford, Oregon, where the family will locate, says the Greensburg News. Mr. Boyd is yet undecided whether he will accept employment in a bank in Medford, or go to work on a fruit farm, having been tendered positions of this nature.

LET US SHOW YOU NO-RIM-CUT TIRES

You are undoubtedly convinced that you should use No-Rim-Cut tires. Every motorist has read about No-Rim-Cut tires again and again in the magazines and newspapers. You have read how the 10 per cent oversize and No-Rim-Cut features cut tire bills in two. You have wanted these tires. They are here now. Let us show you.

NO-RIM-CUT FEATURE
No-Rim-Cut tires have six tapes of 126 braided wires in the base, making the base absolutely unstretchable. Nothing can force the tire out of the rim channel. A hooked base is not necessary to hold the No-Rim-Cut tire on. The hooked side of the rings are turned away from the tire. Then the tire, when deflated, rests on the rounded side of the rings. Rim-Cutting is impossible.
GOOD YEAR
10 PER CENT OVERSIZE
When a car is overloaded the tires get that extra strain. That hastens breakdowns—means blowouts. No-Rim-Cut tires are made 10 per cent oversize to provide for overload. The construction allows that.
That oversize means 10 per cent more air—10 per cent more carrying capacity. That oversize saves all that overloading costs.
Consider these features and what they save the motorists.
No-Rim-Cut tires cost no more than standard clincher tires. Why shouldn't you adopt No-Rim-Cut tires? Come and see them and you will.

Drill—Intermediate Girls.
Chorus, "Vacation"—School.
Valedictory—The Class.

SOCIETY NEWS

The Young Women's Mission Circle of the Main Street Christian church will meet this evening at 7:30 o'clock at the home of Miss Georgia Wyatt in North Main street.

Indianapolis Sun: Miss Sue Anna Sexton and Miss Mary Carr of Rushville came Saturday to visit Miss Charlotte Galpin at her home, 2132 Broadway. Saturday evening Miss Galpin entertained the Shortridge Mandolin club in honor of her guests.

The Woman's Home Missionary Society of the St. Paul M. E. church will meet Wednesday afternoon with Mrs. Ned Abernethy in North Main street instead of with Mrs. F. J. Eubank. This will be the last meeting for this fiscal year and the election of officers will take place. A literary and musical program will be rendered.

Mrs. Wm. Offutt and daughter, Miss Arleigh entertained with a delightful dinner party yesterday at their home in East Sixth street, complimentary to their guests, Mrs. Gilbert Hastings of Chicago and Miss Esma Cole of Indianapolis. The party consisted of the Misses Pearl Leach and Edna Benning and Messrs. Edwin Jeffrey of Connersville, Jefferson McMertry of Indianapolis, and Ben French, Norman Crum, and the Rev. S. S. Offutt of this city.

A Card

This is to certify that Foley's Honey and Tar Compound does not contain any opiates, any habit forming drugs, or any ingredients that could possibly harm its users. On the contrary, its great healing and soothing qualities make it a real remedy for coughs, colds and irritations of the throat, chest and lungs. The genuine is a yellow package. Ask for Foley's Honey and Tar Compound and accept no substitute. F. B. Johnson & Co.

IRL HICKS HAS MISSED IT SO FAR

Storm Period Scheduled to Predominate From June 3 to 9 Did Not Appear.

WIND, RAIN AND HEAT DUE

Missouri Prognosticator Warns Suffering Humanity Against Earthquakes and Tornadoes.

The Rev. Irl Hicks, the Missouri weather prognosticator, has missed it again. It does not necessarily follow however that he will always miss it.

He predicted a regular storm period would extend from the 3d to the 9th. The June solstice would infringe upon this period, causing electrical storms to continue and reach a crisis on and touching the 9th, he said. The moon is on the equator on that day, and the annual magnetic crisis extends from about the 8th to the 15th, so that thunder storms will be frequent and violent for several days at this time. These June thunder squalls often prove quite severe, with only moderate fall of the barometer, is his additional comment.

Here is the dope for the remainder of the month:

A reactionary storm period falls on the 11th, 12th and 13th, precisely at the crisis of electric and magnetic excitement. On the 11th, the north magnetic pole of the earth makes its least angle to the sun's equator, thereby intensifying the electric and magnetic forces throughout the earth and its atmosphere. Hence many phenomena of this character will mark this period. Afternoon rains and thunder storms will be frequent and violent, continuing for days, partly obliterating the interval between the storm periods. New moon the 15th will keep up the temperature, depress the barometer and help to prolong threatening conditions.

A regular storm period is central on the 16th, embracing new moon on the 15th, on the equator the 21st, and in perigee on the 16th, the central day of the period. A very low reading of the barometer, any where from the 16th to 21st, must be taken as a danger signal. As long as your barometer remains normal, don't fear for tornadoes, even if the heavens are ablaze with lightning and resounding with peals of thunder. These solstice storms, as we have often explained, are erratic in their movement—coming up from unusual directions, turning backward from the east after having passed your locality and drenching you from unlooked for quarters with violent squalls of wind and rain. This is caused by confused and unstable atmospheric currents and conditions, arising from the fact that the earth is at her turning, solstice position, where she begins her movement toward the autumnal equinox, and the sun begins to retrace its course southward in the heavens.

A reactionary storm period falling on the 22d, 23d and 24th, will most likely take up and prolong the tendency to afternoon and evening thunder showers, coming over from the preceding period. While an excess of rain will not reach generally over the country, hay-makers and others will do well to figure on frequent showers.

A regular storm period is in progress the last four days in June, central on the 28th. Look for falling barometer, growing cloudiness, and areas of rain, wind and thunder on the 28th, 29th and 30th. The moon is full and at its extreme southern point in the heavens on the 29th. At these solstice full moons there is greater probability of volcanic outbreaks and violent seismic disturbances. A seismic period covers the 26th to July 4, central June 29. Careful readers of the world's telegraph news will see that general volcanic unrest will prevail from about the middle to the end of June, with frequent earthquake shocks in wide extremes of the globe.

Fast Train Catches Accommodation at Sandpit.

FATAL WRECK ON THE MONON

While Switch Was Being Opened to Let the Slower Train in Out of the Way the Fast Mail Thundered Down Hill and Caught the Standing Train Head-on, Killing One and Injuring Many.

Bedford, Ind., June 10.—A Monon fast mail train, in charge of Conductor Elder and Engineer Delap, collided head-on with a Louisville and Bloomington accommodation train at a sand pit siding four miles south of Bedford, killing one man and injuring a score or more passengers.

The victim was J. P. McClure, mail clerk on the accommodation train, a resident of Bloomington, Ind., Edward F. Riley, of the Bronx, New York, received the most serious injuries. He was taken to the hospital here.

The trains had orders to meet at Sandpit, and the accommodation was standing still. While the switch was being opened the fast mail was heard thundering down White River hill only a short distance away. Engineer Delap reversed his engine and blew his distress whistle, and many of the passengers jumped from the train, escaping injury. The engineer and fireman on the accommodation jumped from their engine, escaping without injury.

When the crash came the accommodation train was hurled back 300 yards. The engineer and fireman on the fast mail remained at their posts, but escaped injury. Most of the injured passengers were on the accommodation; only a few on the fast mail receiving slight injuries.

MORE PROSECUTIONS

Board of Accounts Finds Further Shortages of Former Officials.

Indianapolis, June 10.—Governor Marshall has certified to Attorney General Honan a series of reports sent him by the state board of accounts, in which are set out alleged discrepancies in the accounts of almost a score of former public officials. The attorney general will forward the individual reports to the prosecutors interested in each of the cases, with instructions to bring suit to settle the accounts.

The total amount of direct charges lodged against the officials is \$9,085.33, and the total of the constructive charges is \$4,428.79.

Woman's Miraculous Escape.

Anderson, Ind., June 10.—Mrs. Mary Hunter, living two miles northeast of the city, came out of a train accident which cost the life of the horse she was driving and reduced her buggy to splinters. At the Pennsylvania railroad crossing the horse became frightened and tried to rush across the tracks. The horse was knocked thirty feet and killed instantly. The buggy was smashed and beneath the debris was Mrs. Hunter. It was found that she had not suffered a scratch.

Indianapolis Reform Movement.

Indianapolis, June 10.—The city administration practically has decided on a program to close the immoral resorts of Indianapolis. The closing will become effective not later than Dec. 1, it is said, and a formal order is expected to be issued by the police department in the near future directing that all houses known to be used for immoral purposes be closed by the above named date and not again rented for that purpose.

Pulled Toe Off to Save Life.

Wabash, Ind., June 10.—Frank Oswald of this city, an interurban conductor, sacrificed the great toe on his right foot to save his life. Oswald had thrown a switch and was crossing the track when his foot caught in a frog. In the meantime the car was backing toward him. Exerting all his strength, Oswald freed his foot, but his toe was left in the wedge between the rails.

Dying as Result of Auto Accident.

Huntington, Ind., June 10.—Mrs. Ira Shoemaker of Maletica is dying at a hospital here from injuries received when her husband's motor car, which had stalled on a hill, backed on her as she was attempting to place blocks beneath the wheels.

MANY DEALS ON IN REAL ESTATE

Transfers Record Shows Land to The Amount of \$57,390.73 is Sold in County.

DURING PERIOD OF 17 DAYS

Farms as Well as City Lots Change Hands—Largest Single Sale \$7,000.

Real estate to the amount of \$57,390.73 has been sold in Rush county since the middle of May, according to the real estate transfers for that period. A number of sales were made, according to the transfers, in which the price which was paid is not stipulated.

There were a number of sales in which the price ran into the thousands, the largest sum changing hands in one deal being seven thousand dollars. There were a number of city lots changed hands during the seventeen days, as well as a large number of Rush county farms. The

transfer records shows the following:

Thos. M. Green, Com'r, to Center School Township, 2 1/6 acres in Center township, \$—

It would surprise you to know of the great good that is being done by Chamberlain's Tablets, Darius Downey, of Newburg Junction, N. B., writes, "My wife has been using Chamberlain's Tablets and finds them very effective and doing her lots of good." If you have any trouble with your stomach or bowels give them a trial. For sale by All Dealers.

Best by Test—FAIR PROMISE

MRS. SCHENCK
Alleged Poisoner of Husband
Released From Court Custody.

Wheeling, W. Va., June 10.—Mrs. Laura Farnsworth Schenck, indicted and tried for attempting to poison her millionaire husband, John O. Schenck, and held under bail for another trial when the jury disagreed, has been released from custody. Judge Jordan upheld the contention of her attorneys that the district attorney had permitted three terms of court to pass without bringing her to trial.

MEANS NEAR END OF THE WAR THEY SAY

Mexican Loyalists Gratified at Enrile's Capture.

El Paso, Tex., June 10.—Wounded by stabs and bullets from would-be assassins, Gonzales C. Enrile, until recently financial agent of the Mexican revolution, is under arrest in El Paso. Enrile reached Juarez on his way to Los Angeles for treatment. He came over to El Paso and was arrested by Texas rangers. The Mexican consul is endeavoring to establish a case that will warrant the United States holding the wounded man for extradition proceedings. Irregularities in his accounts while consul for the Mexican government at Clifton, Ariz., is the charge made by the consul. Inasmuch as Enrile issued a violent anti-American proclamation addressed to President Taft early in February while in El Paso, the rangers say they can hold him for trial in the United States for that offense.

Enrile attempted to escape from Chihuahua unknown, but his presence on the train when it reached Juarez was tipped off by Captain Gonzales of the rebel army, who had recognized Enrile on the train. A few hours later Captain Gonzales was killed by a shot in the back of the head. There are many violent Enrile partisans in the rebel army who believe that he should get the real credit for whatever success has attended the revolutionists rather than Orozco. According to Mexican officials the downfall of Enrile means the near end of the war. He is the only man who can secure funds to continue the revolution, they say, and they declare his coming to the border was not so much for medical treatment as to escape annihilation at the hands of the federals, who they firmly believe, will crush Orozco's rebels within the next few days.

HELD THE BOOKS

Indianapolis Loan Agencies Temporarily Out of Business.

Indianapolis, June 10.—A delegation of lawyers employed by the loan agencies, the books of which now are in the possession of the grand jury, besieged Judge Markey of criminal court in efforts to get the books and card indexes returned to their respective owners. They contended that as long as the grand jury retains the property the agencies cannot do business. Judge Markey refused to give an order for the return of the books. He estimated that a week or ten days will be required in which to complete the examination. The offer of Prosecutor Frank B. Baker to give free legal advice to the so-called "victims" of the loan agencies was accepted by many persons.

FINE PIANO AT AUCTION

HERE IS YOUR CHANCE TO GET A \$350.00 PIANO AT YOUR OWN PRICE AND TERMS, FOR IT WILL BE POSITIVELY SOLD ON SATURDAY, JUNE 15, 1912.
ALL BIDS MUST BE BY MAIL AND SEALED.

TO OUR TRADE.

The general tendency throughout all branches of trade is to have a fixed established, standard valuation upon various productions. The middleman offers the public a home-made service in purchasing goods of the manufacturer at the lowest possible price and delivering them to the ultimate consumer at an advance which is in direct proportion to the value of the service rendered. The dealer's profit is a legitimate and necessary one; it must be borne by all people, and the middleman is justly entitled to the same.

We herewith, quote a reasonable, just and proper set of prices, at which the products of the Jesse French & Sons Piano Factory should be sold. The dealer's profit at these prices is not in any way exorbitant. At the same time fair to the dealer as well as to the customer, and we STRONGLY URGE that all Krell-French dealers use these prices with their trade, adding to them, the freight to the point of delivery.

New Statutes Planned To Rejuvenate State Road

Indiana needs a rejuvenation of its motor vehicle statutes. The state has needed additional or new legislation on the subject for several years. There is scarcely a doubt that the 1913 Legislature will face the problem of rehabilitating the slender code of "you mustn'ts" that now brings in a meager pittance to the state treasury annually from registration and seeks to keep down "joyspins" by a two-line admonition to "goused" youths, who would let Dame Fortune whirl the wheel around the abrupt corners.

What the state needs is an automobile bureau somewhat after the fashion of the New York state bureau. Hoosier motor enthusiasts legislatively inclined believe. Then it needs a great many additions to the existing statute and perhaps the principal addition should be that of an entirely different registration statute from that which now exists.

Lew G. Ellingham, secretary of State, has been one of the more ardent of the motor legislationists, who would see the State and the automobile owners take up a new system, whereby Indiana roads would become the paradise of pleasure vehicles to even a greater extent than they are now. Following the plan of the Empire state, or others that are perhaps not so well known for their model automobile registration laws, Mr. Ellingham would see passed by the coming session of Hoosier assembly, a statute classifying motor vehicles by horse power, and turning practically all moneys reverting to the state therefrom into a fund for the upkeep of Hoosier highways.

Such regeneration of the registration statutes would be accepted with open arms by motor owners, would alay, to a great extent, whatever remains of the old controversy between the rural inhabitants and the driver of the "city" motor car—if such a vehicle still remains—would equalize the taxation of automobiles throughout the State, and would, within a very few years, raise the standard of Indiana roads out of the scene of Kenyon and his kin, who have labored unceasingly for good roads in Indiana and the country for years.

The time has come and gone many years ago when the automobile was so new that legislation regarding it was somewhat of a conundrum. The machine today has a place in the midst of life of the State that is incalculable in extent and only its regulation by statute has not kept up with the unprecedented stretch into the future of our existence that the motor itself has taken.

Indiana sought to have a "State commission of highways" in 1911 but the bill introduced into the Legislature was defeated and so the same fight will have to be made all over again next year. Meanwhile Indiana automobile owners are paying a uniform registration fee of \$1 per car to the secretary of state and then are paying unusual taxes on the machines. The roads are receiving no benefits from the automobile as an institution. Hundreds of the machines (because of a defeat in the statute on the subject of registration) have not been registered since they originally were purchased, though they have changed hands many times since then, and the auto business as a business has practically no definite place in the legal organization of the state, beyond a criminal place when reckless drivers are fined for speeding.

Contrast the present Indiana system of registration and its results for the year 1911 with that of the New York system and the glaring weakness of the Hoosier statutes will be seen. The weakness is this: The taxation of automobiles is disjointed, little of it finds its way to the upkeep of the roads (which the taxed owner wants above all things) and the state itself benefits but little from its registration law.

In 1911 the entire revenue to the state treasury through the automobile channel was approximately \$13,000. There now are approximately 45,000 motor vehicles registered with the secretary of state. Many of those, of course, are motorcycles, and must be left out of the discussion of a better registration law. With such a law as is on New York's statute books, the annual revenue to Indiana from the registration of autos would be near \$500,000, Mr. Ellingham holds.

In five years that would mean \$2,500,000 put into the building of better roads and the repairing of those already passable for auto travel.

Such a law would be in force in lieu, probably, of all other taxation on autos and a system would be adhered to whereby each change of ownership of an auto would be recorded with the state official and a fee paid.

From the figures in Secretary Ellingham's office it is estimated very roughly that there is an outlay in Indiana for automobiles not in manufacturers' or jobbers' hands of approximately \$30,000,000. Such a portion of the state's wealth certainly needs more careful attention from a legislative standpoint, it is argued, whether that attention takes the form of taxation regulation or a more rigid code of accident-preventive statutes.

Another phase of the proposed auto legislation will provide for the licensing of chauffeurs and will be one of the most effective tools in the hands of the Hoosier government in dealing with accident problems, it is declared. In New York the chauffeur is licensed on a basis of experience and the scheme has worked well, reports say. No person under 18 years old is allowed to drive a car in the Empire state under the statutes. Indianapolis, at times, has sought to enforce some such regulation but it has been desultory and of little effect.

The toll problem of the auto, while not particularly interesting to Hoosier auto drivers, is handed by the New York law and excessive tolls on privately owned roads or bridges, assessed against the auto owners by vindictive road or bridge owners, are regulated by law.

Exemption of non-resident owners from the provisions of registration laws (provided they have registered their cars in the state of their residence) is a part of both the Indiana and New York systems, and is favored by even the most drastic would-be legislators in this state.

Hints that the good roads enthusiasts, who urged the passage of legislation of that character so strongly during the 1911 Assembly, may combine with auto owners and others in favor of the revision of the Hoosier auto laws, have been heard in many parts of the state recently, and it almost is a certainty that a bill to better the present statutes will be introduced in the 1913 Assembly.

CROWS ARE DUPED BY WISE FARMER

Black Pests Which Have Been Stealing Eggs Fall Victims to Agriculturalist's Snare.

HE SUPPLIES GOURD EGGS

Crows which have been pilfering the hen nests on farms in many parts of Rush county are up against a new proposition.

One wise farmer contrived a plan whereby he has been rid of a portion of the black pests and it was done in a novel way. He secured a number of small gourds just the size of small eggs and as nearly like them as possible. In the nests that the crows visited the most frequently he placed these gourds and left them there. On returning to the nest in the evening he found that but few of the gourds were left. The next day while going down across a field close by he found the gourds in a fence corner where the crows had carried them and had picked deep holes in the center of them before they found their mistake.

Since that time he has noticed that not nearly so many crows have been around his barnyard and a larger amount of eggs have been found than before.

The clubwomen of San Francisco have already begun to beautify their city, in anticipation of the coming world's fair.

Electricity can not be frozen, neither can it be adulterated. It works equally well on hot or cold days.

5% PER CENT INTEREST 3 PER CENT COMMISSION JAMES N. COBLE Greensfield, Indiana

Honor of College Students.

Abuses of liberty, as well as nearly all other college delinquencies, can be largely prevented by a consistent appeal to the undergraduate's sense of honor, according to Clayton Sedgwick Cooper, writing in The Century on "The American Undergraduate." "Recently," adds Mr. Cooper, "I asked the president of a North Carolina college what he regarded as the chief characteristic of American students. He replied promptly, 'College honor.' At Princeton, at the University of Virginia, at Amherst and at many other institutions the honor system in examinations, arranged and managed by students, represents the deliberate intention of the undergraduates to do the square thing. These laws, which the students voluntarily impose upon themselves, are enforced more vigorously than the rules of the faculty."

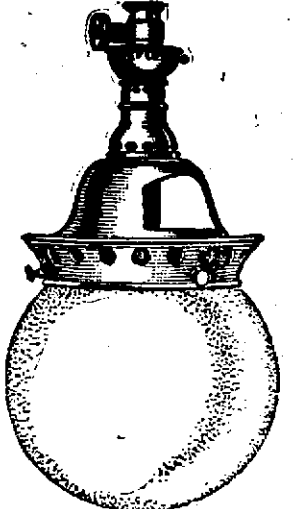

Proposed New Word.

But a few score words in the English language begin with the letter "x." The suggestion that a new word, "xeralexis," be admitted to their serried ranks is therefore an undertaking of some temerity. Dr. H. F. Roberts proposes it in Science, to replace "the clumsy and rather ill-sounding compound, 'drought-resistance.'" The second half of the new word is from the Greek "alexesis," which implies a keeping off or resistance, and is related to the latter part of the Greek derivative, "prophylaxis."

A Warning.

"That man has a screw loose."
"Well, do you think you can mend matters by making him tight?"

REAL ESTATE MAN IS HELD LIABLE

Appellate Court Ruling is That He is Responsible For False Statements.

ALTHOUGH THEY ARE VERBAL

That a real estate agent is responsible for making false statements to a land owner, whose land he is hired to sell, although the contract was verbal and he could not recover compensation for his services, was held by the appellate court today in affirming a judgment of the Hancock circuit court for \$2,300 in favor of Elvora C. Egan against Walter C. Bragg and Edwin P. Thayer.

The plaintiff owned land in Jennings county, which she wished to trade or sell. Bragg and Thayer were employed to dispose of it. A man named Reasoner offered to trade land in Hancock county for her land, but the real estate men misstated the terms on which he would trade, and induced her to sell her land to a third person, for cash, while they made a contract with Reasoner for the trade to be completed after the land had been conveyed to the third person. The real estate men asserted in the suit that as the contract with her was not in writing, and as they had no legal claim against her for services, she could not claim damages on the ground that they owed her any duty. The appellate court failed to sustain them in this defense and held that if while they were assuming to act for her they perpetrated a fraud on her, she can recover damages for the wrong.

Mrs. M. A. McLaughlin, 512 Jay St., LaCrosse, Wis., writes that she suffered all kinds of pains in her back and hips on account of kidney trouble and rheumatism. "I got some Foley Kidney Pills and after taking them for a few days there was a wonderful change in my case, for the pain entirely left my back and hips and I am thankful there is such a medicine as Foley Kidney Pills." F. B. Johnson & Co.

Mrs. Mela Love, wife of Wiley Love, a farmer living near Coveny, Ga., says: "I have taken Foley Kidney Pills and find them to be all you claim for them. They gave me almost instant relief when my kidneys were sluggish and inactive. I can cheerfully recommend them to all sufferers from kidney troubles." F. B. Johnson & Co.

MINISTER LEFT FOR NEW FIELD

The Rev. J. S. Arvin and Family, After Eight Months' Stay Here, Gone to Kentucky.

UNION MEETING LAST NIGHT

Farewell Sermon Preached Before Large Audience at St. Paul M. E. Church.

A union meeting of five of the churches of the city was held at the St. Paul M. E. church Sunday evening in honor of the Rev. J. S. Arvin, pastor of the First Baptist church, who preached his farewell sermon.

The attendance was large and the sermon was strong and intensely earnest and practical. The Rev. Mr. Arvin became pastor of the First Baptist church eight months ago, coming here from Crothersville. The church has prospered well under his administration, showing a large increase in membership and rapid growth in the attendance at Sunday school.

The new pastorate to which the retiring pastor has been called is at New Haven, Kentucky a larger church and better salary being the leading considerations in his making the change.

During his brief stay in our city the Rev. Mr. Arvin has been at all times a ready and willing co-worker with his brother ministers and he and his family have won a large place in the esteem, not only of the Baptist congregation, but of all who have had the pleasure of their acquaintance.

Following the service last evening a farewell reception was tendered the former pastor and his family at the home of Mr. and Mrs. J. E. Meredith in North Harrison street. More than fifty of the members of the church were present all expressing deep regret at the separation at a time when the outlook for splendid results in church growth and for its general prosperity was so promising, but wishing that this earnest, capable and conscientious servant of the Master, and his excellent family may find conditions most satisfactory and pleasing in their new home.

The Rev. Mr. Arvin and family left this morning for Campbellsville, Ky., where they will visit a few days at the home of Mrs. Arvin's parents before going to New Haven.

LOCALS DROP A CLOSE GAME

Continued from page one.

Dammon scoring on the play. Reidenbauch, the big first baseman, pulled off a play which was featured by a lot of bone headed work by the locals. He singled, scoring Mears and when Thomas let the ball get away Reidenbauch took second, then took third when the throw-in was dropped. In an effort to catch him at third a wild throw enabled him to score. Scoring on a single from first only added to the fire works and all this time two men were out. Arnold hit safe and was caught at second when forced by West. The three run lead looked pretty good but in the Rushville half they came back and tied the count.

Waybright singled to right. He was forced by Spacey, who hit to second. Avery was safe when Dammon dropped an easy chance. Carter was the clean up man, getting a pretty three base hit to left field. Avery and Spacey scoring. Cook hit safe through second, Carter scoring. Thomas hit into a double play, ending the scoring.

With the score a tie and each team working hard for the break, the fans were kept guessing. The suspense did not last very long, for Indianapolis came right back in the seventh and added two more runs. C. Zeller hit safe. Cubits struck out. Seannaker was safe on an error by Spacey, Zeller scoring. G. Zeller struck out. Dammon hit to right field and was safe when Waybright dropped the ball. Seannaker scored on the play. Mears struck out. Rushville drew a blank the next time up and went to bat in the ninth with a two run lead to overcome. Cook was out. Seannaker to Reidenbauch. Thomas flied out to West. Darmond walked. Geraghty got a nice two base hit, scoring Darmond. The stuff was all off when Geraghty was caught at third. It was a hard game to lose and really should have gone to Rushville. The break in luck was with the visitors.

The score:

Indianapolis	Ab. H. R. O. A. E.
Seannaker, 2	6 1 2 1 2 0
G. Zeller, 1f	5 1 2 2 0 0

More Than 1,000 Slain. Rome, June 10.—General Caneva has sent to the government a detailed report of the victory by the Italians at Zanzur oasis on Saturday. The report says the Turks lost at least 1,000 killed and the Italian losses were eleven killed and eight officers and 252 men wounded.

To Impeach Judge Hanford. Washington, June 10.—Representative Berger, the Socialist member from Milwaukee, has entered impeachment proceedings against Federal Judge Hanford of Seattle, who recently deprived Leonard Olsen of that city of his citizenship because he was a Socialist.

Sudden Slump in Value. Tarrytown, N. Y., June 10.—John D. Rockefeller's million-dollar addition which provided ten more bedrooms to his mansion at Pocantico Hills, is only worth \$100,000, according to a statement filed by Mr. Rockefeller's lawyer with the board of assessors.

REVISES RULES FOR GRADING

State Board of Education Adopts Report of Special Committee Recommending New Requirements.

SPECIAL QUESTION LIST

The state board of education has adopted the report of the special committee selected to revise rules for the grading of accredited colleges and normal schools engaged in the training of teachers. It was decided to prepare a list of questions to be submitted to all such schools seeking to be accredited and to send them also to schools already accredited. These questions concern recitation periods, degrees, laboratories, libraries, work in pedagogy, teachers, maximum hours of work required, college or normal school funds, experience of teachers, requirements for entrance, etc. The board's examination of the schools will be based on the answers to these questions. It was also decided that when a graduate of such a school seeks to hold a commission as superintendent of a high school he must present legal proof of his graduation. The changes will be effective for the approaching school year.

The board decided to accept in lieu of the specified requirements in Classes A, B, C of teachers, a minimum of college training for persons who have attended school outside the state and wish to become teachers in this state. The question of the minimum requirements was left to a committee. The board adjourned to meet September 12.

RURAL CARRIERS TO FIGHT FIRES

Recent Order of Postmaster-General Means 55,000 Men Will Co-Operate in This Work.

TO ASSIST FOREST RANGERS

As a result of an order issued by Postmaster-General Hitchcock, more than a million miles of roadway territory, in comparatively sparsely settled sections of the country, will be covered daily by a forest fire preventive force of fifty-five thousand men as a result of an order issued by Postmaster-General Hitchcock. These men are the rural and star route mail carriers, who are directed to co-operate with the forest rangers and state fire wardens in every way possible.

Last year forest fires destroyed approximately \$50,000,000 worth of property. The agricultural department has been anxious to increase the efficiency and strength of its forest fire preventive service and Postmaster-General Hitchcock offered his department's assistance.

There are forty-two thousand rural and thirteen thousand star route mail carriers. Their daily routes take them, for the most part, through sparsely inhabited parts of the country, in many sections through the wilderness itself. The aggregate length of the daily routes is 1,200,000 miles, and the carriers have every opportunity to note closely the country through which they pass.

By the terms of Hitchcock's order the duty of the carriers on observing a fire or any indications of a fire will be to notify the nearest forest forest rangers or fire warden. Postmasters in or near national forest reserves are also instructed immediately to report forest fires.

They Put an End to It

Charles Sable, 30 Cook St., Rochester, N. Y., says he recommends Foley Kidney Pills at every opportunity because they gave him prompt relief from a bad case of kidney trouble that had long bothered him. Such a recommendation, coming from Mr. Sable, is direct and convincing evidence of the great curative qualities of Foley Kidney Pills. F. B. Johnson & Co.

Guardian

This Company acts as Guardian of the estate of Minors. It frequently happens that minor children, who are left with an estate, experience difficulty in finding a suitable friend to act as their guardian. Sometimes the guardian dies and another must be appointed by the Court. In appointing this Company as Guardian such risks are definitely eliminated.
